Other services

COMPANY SET-UP

We count with an extensive experience, gained over many years, in the formation of companies in Spain. We assist our clients even before they land in Spain, advising them about the best way of setting up their business (e.g. by establishing a representative office, a branch, a resident company -S.A. or S.L.- or a franchise).

Once the decision is made, the incorporation process may take no longer than 7-8 working days, including the 6 following steps:

- 1 - Application for the company's name and NIE number/s.
- 2 - Opening of the bank account where the share capital has to be deposited.
- 3 - Drafting of the By-Laws.
- 4 - You come to Spain to execute the Incorporation Deed at the Notary's.
- 5 - Application for the new company's tax ID.
- 6 - We file the Incorporation Deed with the Mercantil Register.

INVOICING

When making business in Spain, your company will be required to issue tax invoices for its transactions and in accordance with the requirements established in the Spanish Invoicing Regulation. However, said regulation allows you to outsource invoicing to a third party.

Avantges Invoicing Service provides businesses with access to highly skilled professionals that take over the labor-intensive and routine processes that impede agile financial decision making. Our service includes computerized set-up of invoices, monthly invoicing, and a monthly accounts receivable report. Invoices are validated to ensure each invoice contains the required data needed to be 100% compliant and achieve the highest levels of automatic matching to purchase orders. In addition, monthly process reporting is proactively undertaken to ensure continuous improvement across the invoice handling process.

With our Invoicing service your company will keep turnover under control and be compliant with VAT rules as well as with the requirements established in the Spanish Invoicing Regulation.

PROVISION OF REGISTERED OFFICE

A registered office is the registered address of a limited company. It must be a physical location in Spain at which official documents can be served. It will be held on public record at the Companies Registry, available to everyone.

Our service will provide you with a central Barcelona or Madrid address – prestigious corporate address located in the business district- for legal and tax purposes, which you can then give to your clients.

In addition, thanks to our Mail Forwarding Service your incoming mail will be processed efficiently, professionally and quickly, allowing you to concentrate on other aspects of your business. With no additional cost, junk mail will be automatically filtered so you only receive the pieces of mail that are essential to your business.

Why Outsourcing

The benefits of outsourcing vary greatly, depending on the applications to be outsourced and the organization's resources. However, it is a fact that in today's competitive economy, the accounting, as well as the tax and payroll functions are gaining importance every day and there are several reasons why outsourcing said functions makes sense for almost all employers, regardless the size of their company.

In this respect, it is worth mentioning that outsourcing is no longer just for large companies.
